

Collaboration and Co-Creation in a Multicultural Team

WE ARE STRONGER TOGETHER

Collaboration enables the sharing of skills, resources and experiences.

This pooling of abilities can help with tasks as each participating member can rely on the strengths of others.

Aims and Objectives

Participants learn methods and tools that support the development of effective collaboration within diverse teams.

Creative skills such as problem solving and innovation are imperative for successful entrepreneurship.

The ability to empower self and others ensures that the partners can achieve both their individual and team goals.

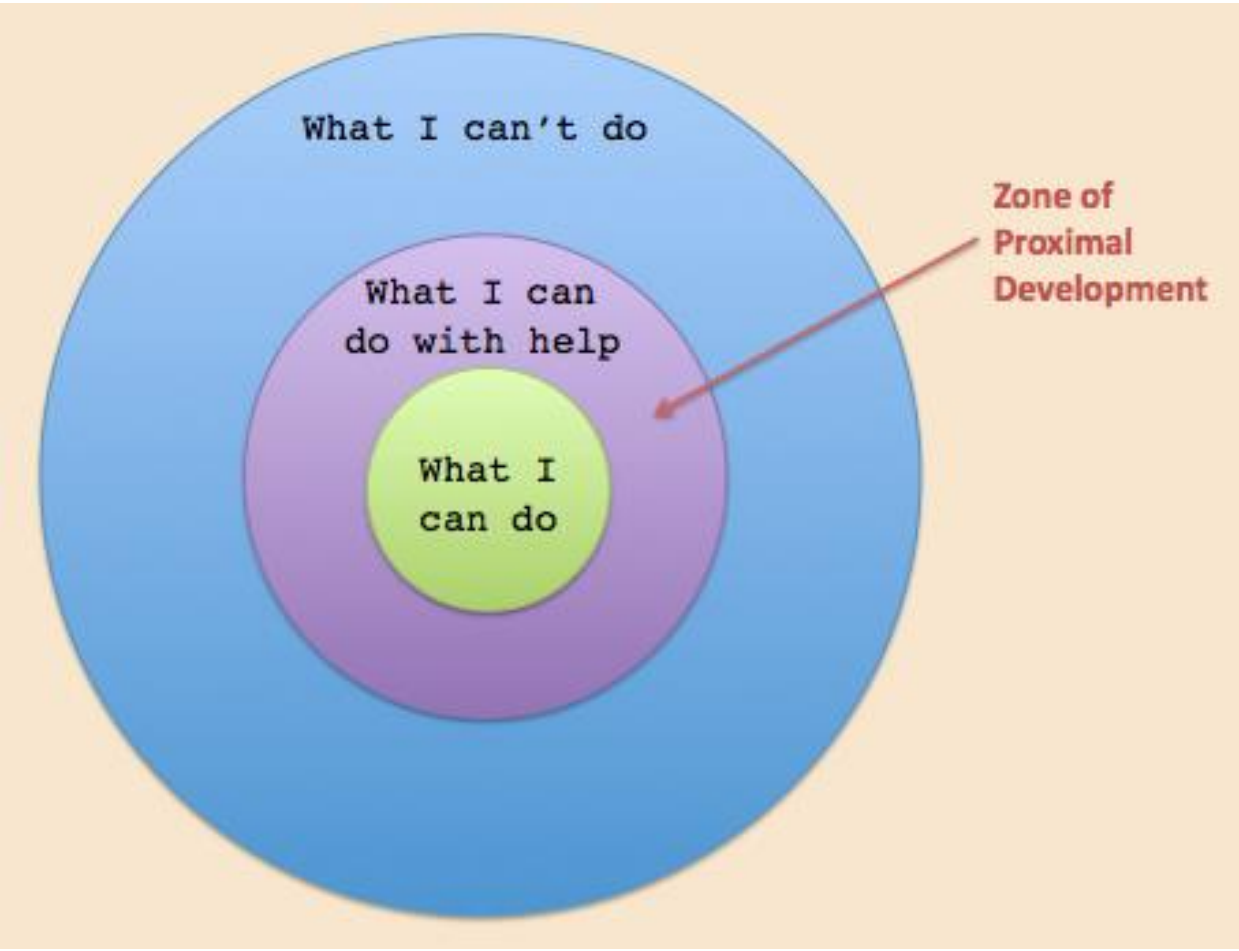

Lev Vygotsky

Sociocultural theory views human development as a socially mediated process in which children acquire their cultural values, beliefs, and problem-solving strategies through collaborative dialogues with more knowledgeable members of society.

Sociocultural Theory of Development

A person's cognitive development is largely influenced by their surrounding culture

Now that you know about the
Power of Cross Cultural Collaboration,
let's WORK TOGETHER to become
BETTER COLLABORATORS
